

Gabriel Cabalceta Quirós

San José, Costa Rica | [linkedin.com/in/devcabalceta](https://www.linkedin.com/in/devcabalceta) | +506 8344 2305 | cabalceta.gabriel.2001@gmail.com

Full Stack Developer experienced in building and maintaining production web platforms and internal systems for an educational institution — from public-facing sites to internal enrollment, admissions, and administrative tools. Proficient across the stack: React, TypeScript, and Astro on the frontend; Java, .NET, Node.js, PHP (Laravel), and Python on the backend. Skilled in RESTful API design, SQL database optimization (MySQL, SQL Server), Git workflows, and Docker containerization, with a strong focus on clean code and SOLID principles.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, PHP, Python, SQL, HTML, CSS

Frameworks & Libraries: React, Astro, Laravel, .NET, Spring Boot, Node.js, Bootstrap, Tailwind CSS

Databases: MySQL, SQL Server, Firebase

Tools & Practices: Git, Docker, RESTful APIs, SOLID Principles, Design Patterns, Clean Code

PROFESSIONAL EXPERIENCE

Colegio Técnico Cedes Don Bosco

Full Stack Developer

San José, Costa Rica

January 2025 – Present

- Develop and maintain a web platform for the Technology Academy focused on student engagement and enrollment growth.
- Design and maintain internal systems for enrollment, admissions, and the institutional intranet, improving usability and operational efficiency.
- Build and deploy full-stack web applications using React, Astro, HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, PHP, and MySQL.
- Develop backend logic and RESTful APIs while optimizing database structures for scalability and performance.
- Manage version control with Git and containerized environments with Docker to streamline development and deployment workflows.
- Apply clean code practices, design patterns, and SOLID principles across ongoing projects.

Colegio Técnico Cedes Don Bosco

Technical Support Specialist

San José, Costa Rica

August 2022 – January 2025

- Configured and troubleshooted institutional computer networks using Cisco technologies.
- Installed, maintained, and repaired hardware and software, ensuring system reliability and continuity.
- Implemented and managed Windows domain infrastructure with Active Directory, including user administration and network printer deployment.
- Administered on-premise servers, telephony systems, and multi-OS environments (Windows/Linux), maintaining stability and security.
- Served as Cisco Instructor, delivering CCNA 1–3, Networking Essentials, Python and IT Essentials courses.

Arcos Dorados de Costa Rica (McDonald's)

Crew Trainer & Customer Service Representative

San José, Costa Rica

March 2021 – August 2022

- Trained and onboarded new team members in operational procedures, customer service, and quality protocols.
- Managed cash register operations and resolved customer and payment-related inquiries efficiently.
- Ensured compliance with service standards, food safety regulations, and operational guidelines.

PROJECTS

Professional — Colegio Técnico Cedes Don Bosco

- Online Enrollment System (<https://cedesdonbosco.ed.cr/matricula/>): self-service platform for annual student enrollment, with multi-step forms, document uploads, digital signature, and real-time requirement tracking.
- Institutional Intranet (<https://intranet.cedesdonbosco.ed.cr/>): internal portal supporting staff and academic operations
- CDC — Centro de Desarrollo de Competencias (<https://cedesdonbosco.ed.cr/cdc/>): multi-section institutional site covering training, production, and R&D programs, with dynamic news and course catalog.
- EXPOTEC 2026 Landing Page (<http://cedesdonbosco.ed.cr/expotec>) and Administrative Portal (<http://cedesdonbosco.ed.cr/cie>): countdown site and login-based control panel for the school's annual technology fair.
- Parent Portal — in development.

Personal

- Full-Stack System — Upgrade! Comunicación y Entretenimiento — in development.
- Fan de Maíz (<http://fandemaiz.com>): marketing website for a Costa Rican bakery, with product catalog and WhatsApp/social media integration.
- Spotify Clone (<https://gabriel-spotify-clone.netlify.app/>) and Tesla Landing Page Clone (<https://gabriel-tesla-landing.netlify.app/>): front-end recreations built with Astro.
- GIF Search App (<https://gabriel-gifs-app.netlify.app/>): interactive tool for searching and browsing GIFs.

EDUCATION

UNIVERSIDAD FIDELITAS

- Software Development Engineering

San José, Costa Rica

August 2023 – Present
